**Care Instructions**      Always use a clean, white, soft cloth.  
  
Clean in situ using a damp cloth and mild detergent. Sponge down afterwards with a clean, damp cloth.  
  
Using a cloth to pat dry will help eliminate watermarks.  
  
Ensure the pile is brushed back to its natural direction.  
  
Upholstered furniture should be regularly vacuumed or brushed with a soft nylon brush to remove grit or dust, which may damage the pile.  
  
Never use stiff bristles or wire brushes, as they may damage the fabric.  
  
For more difficult stains, dampen a soft white cloth with a solution of household bleach (10% bleach / 90% water). Rub gently. Rinse with a water dampened cloth to remove bleach concentration.  
  
Always test in an inconspicuous area first. If care instructions don't deliver the expected results, cease cleaning method immediately and contact Baresque for assistance.
