Care Instructions	<p>One of the best ways to keep fabrics looking good is to brush off dirt before it becomes embedded in the fabrics and wipe up spills or clean soon after a stain occurs. The quicker you clean spills and stains, the easier they can be to remove.</p> <p>Avoid scrubbing or any other abrasive cleaning method. Never use stiff bristles or wire brushes, as they may damage the fabric.</p> <p>Wipe material with a clean, soft cloth dampened with a mild solution of liquid detergent and warm water.</p> <p>Repeat using only clean water, then dry with a lint free cloth or air dry.</p> <p>Avoid using wax polishes, solvents or concentrated abrasives.</p> <p>For more difficult stains, dampen a soft white cloth with a solution of household bleach (10% bleach / 90% water). Rub gently. Rinse with a water dampened cloth to remove bleach concentration.</p> <p>Always test in an inconspicuous area first.</p> <p>If care instructions don't deliver the expected results, cease cleaning method immediately and contact Baresque for assistance.</p>
