Care Instructions

Use cloth with any of the following in preferred order of use:

- 1: Clear warm water
- 2: Mild solution of liquid detergent and warm water
- 3: Isopropyl Alcohol (a.k.a. rubbing alcohol)

Remove any detergent with a clean, damp cloth. Gently pat dry.

For more difficult stains, dampen a soft white cloth with a solution of household bleach (10% bleach / 90% water). Rub gently.

Rinse with a water dampened cloth to remove bleach concentration.

Do not use solvent based or concentrated abrasive cleaning agents, lacquer thinners or nail polish remover as these may cause discolouration over a period of time.

Always test in an inconspicuous area first.

If care instructions don't deliver the expected results, cease cleaning method immediately and contact Baresque for assistance.
