Gaia, a Tekloom® fabric with a multi-colored dot pattern, is bleach-cleanable, soil- and stain-resistant, impermeable, and passes 1,000,000 double rubs for durability.

✓ **Bleach Cleanable**

✓ **Phthalate Free**

✓ **HPD Certified**

Description

Looking at a sky filled with stars, we see something greater than ourselves. Endless connections, countless moments of peace.

Decorated in multi-coloured dots, Gaia, meaning Mother Earth, seeks to capture the awe we experience gazing at the night sky.

This Tekloom® tripick, small dotted pattern, has an impermeable surface, passes 1,000,000 double rubs, is inherently soil and stain resistant, and is bleach-cleanable.

Roll Size

137cm x Approx 45m - Available by the lineal metre

Composition

88% Polyester , 12% Tekloom® TPE (Graffiti-Free®) Backing: Acrylic

Abrasion

1,000,000+ Double Rubs (Wyzenbeek)

Pattern Repeat Size

45cm V / 37cm H

Environmental Info

PVC free

Phthalate Free

DMF Free

No added fire retardant

Anti-Bacterial

Healthier Hospitals compliant

Complies with CAL01351

Fire Rating

Tested in accordance with AS1530.3

Spread of Flame Index - 0

Smoke Developed Index - 5

Warranty

2-year warranty. Visit [baresque.com.au/warranty](https://www.baresque.com.au/warranty) for complete details.

Lead Time

- 2-weeks (approx.) from Wednesday, subject to stock availability.
 - Additional 1-week for Western Australia.
 - Express delivery is available subject to a surcharge. Contact Baresque for details and pricing.

Care Instructions

While Tekloom® is inherently stain resistant, it is important to keep it clean at all times to maintain the original look and feel. Spot cleaning with a clean, soft towel with clean water will remove most of the everyday stains.

Cleaning Code: W/S, Bleach (10:1), Dry Care™

DISINFECTION

Tekloom can be disinfected with a 10:1 bleach dilution of water/bleach.

Apply the solution using a misting spray bottle and gently scrub the affected area with a sponge or soft bristle brush. Allow the mixture to linger for the time specified by the facility.

Avoid soaking the seamed area to prevent the bleach from penetrating thru the protective layer.

Rinse all cleaning agents thoroughly with water and wipe with a soft cloth

Residue left by cleaning agents will degrade and shorten the life and/or affect the product's appearance if not removed.

Always test in an inconspicuous area first.
