New Releases - Stratek - Stratek

Texture: 1
 Lustre: 2
 Transparency: 1

<p>DESCRIPTION / FEATURES</p>	<p>STRATEK 3D Laminates, the industry’s premier laminate for retail fixture, food service applications and medical furnishings, are a rigid thermofoil (RTF) that can be membrane-pressed or vacuum-formed to contoured surface profiles as well as being installed as a wallcovering. Its dimensional flexibility eliminates the need for T-molding, edgebanding, visible seams and special edge treatments.</p> <p>Baresque’s STRATEK 3D Laminates provide a higher level of durability than standard thermofoils. With added impact, marring and abrasion resistance as well as improved stain resistance, they are suitable for use on many horizontal surfaces, such as counters, tabletops and work surfaces.</p>
--------------------------------------	---

COMPOSITION	Vinyl 3D Laminate. Table tops supplied on MR MDF substrate
WIDTH	132cm / 137cm
ROLL LENGTH	Stocked colours - Available by the lineal metre Indent colours - Available by the full roll only
WEIGHT	560g/m2
PATTERN REPEAT	N/A
SUGGESTED INSTALLATION	Non-reverse hang / overlap and double cut.
LEAD TIME	Stocked colours - Sydney, Melbourne, Brisbane - 2 working days, Adelaide - 4 working days, Perth - 5 working days. Indent colours - 3-4 weeks For table tops - add 2 weeks to the Stocked or Indent lead time (subject to order size)
FIRE RATING	Fire: In accordance with AS/NZS 3837 Classification - Group 1 Specific Extinction - Less than 250m2/kg

CARE INSTRUCTIONS

Wipe material with a clean, soft cloth dampened with a mild solution of liquid detergent and warm water. Repeat using only clean water, then dry with a lint free cloth.

Avoid using wax polishes, solvents or concentrated abrasives.

For more difficult stains, dampen a soft white cloth with a solution of household bleach (10% bleach / 90% water). Rub gently.

Rinse with a water dampened cloth to remove bleach concentration.

Always test in an inconspicuous area first.
